SUMMARY

Accomplished Oracle PPM Analyst with expertise in Oracle SQL and Excel. Self-taught in Linux, Python, MySQL, Docker, Git, GitHub, and GitHub Actions. Proficient in deriving actionable insights from data. Committed to advancing skills and driving impactful solutions.

WORK EXPERIENCE

Tata Consultancy Services, Oracle PPM Analyst— 07/2021 - Present

Oracle PPM

- Collaborating with project teams to understand their business requirements and design solutions that meet their needs
- Configuring and customising Oracle PPM software to align with project management best practices and client-specific requirements
- Training end-users on how to use the Oracle PPM software and providing ongoing support
- Identifying areas for process improvement and recommending solutions to optimize project management processes

Reporting & Analysis using Oracle Database SQL

- Utilized over 2 years of hands-on experience in SQL, honing skills in Oracle Database SQL and MySQL, enabling the delivery of impactful analytical solutions.
- Transformed raw data into actionable insights, resulting in a 3% increase in operational efficiency.
- Proactively responded to client needs by providing data-driven insights that enabled the tracking of costs across various business units, resulting in a 7% reduction in expenditure.
- Leveraged SQL expertise to facilitate the extraction and analysis of data related to expenditure items such as petrol and hotel expenses incurred by employees, leading to an 11% improvement in cost monitoring and optimisation strategies.
- Consistently delivered accurate and timely data, empowering clients to make informed decisions and optimise expenditures effectively.
